Nuno Silva

Engagement Manager @ WYcreative | Technology in service of people, not the other way around | Make People Great Again
Lisbon, Lisbon, Portugal

Summary

I make sure what agencies promise is what clients get.I'm Engagement Manager at WYcreative (WYgroup), the bridge between clients and the teams that deliver for them: aligning scope, priorities and expectations, and growing relationships that last.I've been building digital since 1996. I co-founded Wiz Interactive in 1998 and ran it for 22 years: 100+ clients, 80+ national and international awards, Digital Agency of the Year twice. Work I'm proud of includes the RTP Virtual Museum, Mateus Rosé's first digital presence and Amnesty International's Freedom Dictionary (Gold, El Ojo de Iberoamérica). Then, as Head of Digital at BUS, I grew digital revenue, cut external vendor costs and brought AI into creative and research workflows.WHAT I BRING• Client and stakeholder management, from day-to-day delivery to C-level conversations • Digital strategy and transformation, from roadmap to execution • Operational leadership: P&L, team building, process • Technology that serves the business: analytics, martech and AI, chosen for ROI, not hypeHOW I WORKI combine a technical background (M.Sc. in Computer Science, specialised in Virtual Reality and UX) with professional acting training, which has proven invaluable in presentations, negotiations and building trust. I lead with strategy and execute with words: as a hands-on copywriter, I bridge data and human emotion.I also write MPGA (Make People Great Again), a newsletter on leadership, culture and the place of people in an increasingly automated world."You always were complete. There is no wave separated from the ocean. The wave IS the ocean."
